情景作文 One possible version:

How to protect the environment becomes one of the biggest problems in the world. The environment pollution is more and more serious today. We have no clean water to drink because of water pollution. And when trees are cut down, some animals disappear. There is more and more dirty smoke in the air. People's health has been greatly affected by air, noise and water pollution. In order to live a better life, it's time for us to protect our world.

First, we shouldn't throw away rubbish everywhere. And we shouldn't pour the waste water into the river. Don't use plastic bags. And plant more trees. Also, we can go to school on foot or by bike. In a word, if everyone pays more attention to our environment, our life will be better.
